

Teaching and Research Staff

Personnel in Food Tech Department belongs to three collectives: Teaching and Research Staff (PDI), Administration and Services Personnel (PAS) and Training Predoctoral Staff.

PDI has as main functions to develop all necessary activities related with generation of knowledge, and its transmission, diffusion and application. Their daily activity is shared in teaching, research, innovation and knowledge transfer, and management. All PDI has full teaching and research capacity. Innovation activities imply to push the application of knowledge towards the society in general and the economic stakeholders in particular, and must involve productive development and innovation processes.
